

OUR Vision

To serve as an industry leader that delivers high-quality solutions and innovation that promotes and supports the safety and security of people, information, and critical assets around the world while adhering to the highest ethical standards.

Macfadden fulfills its Mission through its commitment to the following ideals:

- Principle of Customer Service
- Working with Corporate Integrity Above Reproach
- Supporting Programs that Achieve Our Mission

OUR Capabilities

Program Management An ISO 9001:2008-certified prime contractor, Macfadden’s customer-centered program management approach supports our clients’ need for quick action in dynamic, highly sensitive situations. We meet this challenge through flexible, responsive oversight and proactive communication and risk mitigation.

Financial Management and Systems Support Macfadden’s clients recognize our unique ability to bridge the gap between financial theory and policies and real world execution. We understand the complex challenges of government financial management, financial systems support and business operations, and utilize a proven combination of proactive problem-solving, reliable execution, flexibility, and close financial controls in our work.

Knowledge Management and Communications Macfadden utilizes cutting-edge technology and approaches to provide knowledge and information management for key government decision makers. We capture critical real-time information to assess and respond to worldwide disasters, monitor and evaluate program impact, and develop innovative marketing and outreach strategies to maximize the effect of our clients’ message.

Information Technology Solutions and Support Agencies across government entrust Macfadden with the design, operation and maintenance, and modernization of mission-critical, enterprise-wide Information Technology systems. Our solutions support the regulatory mission of our customers and turn data into knowledge that improves operational performance, delivers cost savings and enhances the ability to make crucial decisions.
